LAMOR

Lamor Harbo boom (15m) cartridge:

The oil spill first response system that immediately stops the spread of oil using advanced containment technology. Oil spills cause tremendous damage because of long response times.

The longer it takes, the more the oil spreads causing extensive damage to the environment, infrastructure closure, accumulated cost and public scrutiny.

Our lightweight and portable solution enables deployment within minutes by just two people, drastically reducing spill damage. With immediate containment capabilities, Lamor Harbo boom controls the spill at its source, improving clean-up effectiveness.

Lamor Harbo boom (10m) backpack:

A more compact and ergonomical portable back pack solution of the Harbo boom.

Backpack version has two side pockets including Ground Cover, Disposal Liner, Deployment Rope and Caribiner.

The Backpack also has wheels, handles, graphic deployment & retrieval instructions as well as a QR code with link to a webpage with further details about the product.

Reduce the damage with a faster response

Speed: lightweight and portable design supporting a rapid response – deploy your boom in only seconds

Easy handling: easy to use and only requires one person

First response: contain marine oil spills immediately without heavy machinery or trained responders

Reduced consequences: fast and efficient first response to spills helps avoid costly clean-up measures, infrastructure shutdowns, negative pr, and regulatory backlash

Efficient containment: improves oil spill response efficiency by rapid containment of spilled oil.

Smart design: durable and designed to respond effectively in coastal and inland waterways

Unlimited length: no limits on amount of sections connected together

Less storage required: significantly more compact for storage than any other containment boom -atv can carry 500 ft 20 ft container can hold 7,500 ft

Technical specifications sheet Lamor Harbo boom 15 m:

Boom	
Boom weight	920 gr/m (9.9 oz/ft)
Total height	32 cm (12.5")
Freeboard	12 cm (4.5")
Draft/Skirt	20 cm (8")
Handles	Every 5m (16')
Connector	Harbo Boom ClickFast Aluminum

Cartridge	
Length of Boom in Cartridge	15 m (50')
Packing	Sturdy plastic shell. Collapsible
Cartridge Weight	20 kg (44 lbs)
Cartridge Dimensions	60 x 40 x 70 cm (2' x 1'4" x 2'3")

Technical specifications sheet Lamor Harbo boom backpack 10 m:

Boom	
Boom weight	920 gr/m (9.9 oz/ft)
Total height	32 cm (12.5")
Freeboard	12 cm (4.5")
Draft/Skirt	20 cm (8")
Handles	Every 5m (16')
Connector	Harbo Boom ClickFast Aluminum

Backpack	
Length in Backpack	10 m (30')
Packing	Rugged PVC Backpack with wheels & handle
Cartridge Weight	15 kg (33 lbs)
Cartridge Dimensions	60 x 40 x 70 cm (2' x 1'4" x 2'3")

LAMOR

Let's clean the world

Lamor in brief

Lamor is one of the world's leading providers of environmental solutions. For four decades, we have worked to clean up and prevent environmental incidents on land and at sea.

Environmental protection, soil remediation and material recycling: Our innovative technologies, services and tailored solutions, ranging from oil spill response, waste management and water treatment to soil remediation and plastic recycling, benefit customers and environments all over the world.

We are capable of vast and fast operations thanks to our connected ecosystem of local partners, steered by our experts. Lamor's share is listed on the Nasdaq Helsinki (ticker: LAMOR). Further information: www.lamor.com
